## Equine Herpes Virus Show Requirements – Notice to ALL competitors

### Recommended best practices:

#### The Disease

Equine Herpes Virus-1 (EHV-1) is a virus that is ubiquitous in the environment and found in most horses all over the world. All equids are susceptible to EHV-1. The virus is not transmissible to humans. EHV-1 infection in horses can cause respiratory disease, abortion in mares, neonatal foal death, and neurological disease. Horses are typically exposed to the virus at a young age with no serious side effects. It is unknown what causes some horses to develop the serious neurological form of the disease. The neurological form of the disease is known as Equine Herpes Myeloencephalopathy (EHM). In this syndrome, the EHV-1 virus damages blood vessels in the brain and spinal cord causing the various neurological clinical presentations of the disease.

#### Transmission

EHV-1 is easily spread and typically has an incubation period between 2-10 days. Respiratory shedding of the virus generally occurs for 7-10 days, but may persist longer in clinically infected horses. Similar to herpes viruses in other species, the latent form of EHV-1 can reactivate at a later date, but generally with a low viral load posing a low risk of infecting other horses. EHV-1 is spread through direct horse to horse contact. The virus may also be spread indirectly through contact with objects contaminated with the virus, such as clothing, human hands, tack, trailers, feed/water buckets and wash rags. Since the size of the virus limits the capacity for airborne transmission, to distances of less than 30 feet, direct and indirect contact are the most important routes of transmission. Horses infected with EHV-1 and horses incubating the virus, shed it via nasal secretions. Horses with severe clinical signs consistent with the neurologic form most often shed large viral loads in nasal secretions and present the greatest risk for disease spread.

### **Per USEF guidelines the following requirements and best practices for biosecurity are required on entry to the showgrounds:**

- Check and record temperatures twice daily and post on stall door
- Any suspicion of illness in horses, including a temperature over 101.5°F, **MUST** be immediately reported to the show office and veterinarian.
- Immediately isolate and/or quarantine any horse exhibiting symptoms of illness
- DO NOT travel to another competition for 14 days
- Avoid animal-to-animal contact
- Do not share equipment between horses. IF YOU MUST SHARE, scrub and clean equipment with detergent and dry completely between shared use.
- **When filling water buckets, DO NOT dip the end of the hose in each bucket. Hold the hose above the water when filling.**
- Wash/sanitize hands thoroughly before and after direct horse contact
- Limit human-horse contact
- Because humans can be a means of disease transmission, avoid moving between barns unless absolutely necessary

# **CDS PONY AWARD**

CDS has created a Pony Award. The high scoring pony at Training - Grand Prix (Freestyles excluded) at each CDS recognized show will receive a High Score Pony Ribbon.

The shows should:

1. Identify the high scoring pony on their CDS COVER SHEET.
2. ATTACH a copy of the USEF DRESSAGE pony measurement card.

The CDS Central Office will send out the award to the pony rider. All pony riders should inform show management that they would like to be considered for the CDS Pony Award.

To be eligible, all ponies **must** have a current USEF DRESSAGE Pony Measurement Card.

If the pony is measured at a show and receives a temporary show measurement, that measurement will be good for all CDS shows during that show season.

CDS will also offer a Year End Award to the Highest Scoring Pony in Open, Amateur and Junior Divisions.

## **Ponies**

Technical Delegates are certified to measure ponies with the USEF approved stick. Measuring must be performed by a TD, with the show veterinarian. In order to be officially measured, the pony must be entered in the competition. The owner must be a USEF member or pay a fee.

Dressage and/or DSHB competitions which offer classes or divisions limited to ponies are required to have an official measuring stick available and the TD must be on the Federation list of those approved to measure, or a licensed Steward must be present.

If classes restricted to ponies are not offered, the competitor is responsible for arranging the measurement and the cost of the on-call vet.

Adults and Juniors may show ponies in dressage. If you own a pony, read the entire section in the USEF Dressage Rules. [www.usef.org](http://www.usef.org).

CDS will accept temporary show measurements and the competitor may take that measurement form and use it for that show and any CDS show during the current show year. The USEF official DRESSAGE PONY measurement cards will be accepted as a valid card.

There are no courtesy, or trial measurements. Once the show officials place the stick on the pony, the measurement is final. Ponies must be re-measured annually until they reach the age of eight.

Your responsibility as a pony owner and or rider:

1. Know the rules. If you have any questions, call USEF.
2. If a pony class is offered at a show and your pony does not have a current measurement card, contact the show management to make sure they have an approved metric stick, and at the same time letting them know your pony needs to be measured prior to its class.
3. If you are in possession of a valid USEF DRESSAGE pony measurement card, then, simply enclose a copy of it with your entry.
