Video Rules

You may videotape your ride/drive as soon as you have your sign. Videos must be in focus. Remember, the judge can only score what they can see, so follow these guidelines carefully! Please see the information on [MAAP](#).

IMPORTANT! Show Management will review all submissions to ensure adherence to the rules as stated below. If a test does not comply with the rules, Show Management will contact the exhibitor immediately via email, text, or phone. The exhibitor will have 48 hours to resubmit their test from the time of the notification. Please take all guidelines into consideration when preparing your test submissions.

Video Guidelines:

- Use arenas that are as close to regulation size as possible and be sure letters are set appropriately to be viewed by the judge. Cones with large letters on them and poles on the ground to delineate the corners are acceptable. Large letters taped on walls work as well. If a test allows for the use of either the large or small arena, you can show in either size.
 - To ensure that only videos taped for this competition are used, videos of tests must be unedited from start to finish, including the sign and equipment check and bridle/bit drop. They must be one continuous recording with the horse and rider visible at all times. Bridle and saddle pad numbers are not allowed.
 - Videos must be filmed in LANDSCAPE orientation.
 - The natural background sound for the test must be audible. Tests with no sound will not be accepted.
 - Only video links from YouTube will be accepted.
 - The test must be videoed from behind C, where the judge would normally be seated. Try and set the camera 4-5' off the ground. It makes the geometry easier for the judge to see.
 - Prior to beginning the test, a sign must be held up showing the show name, WDAA show recognition number (if applicable), date of the show, horse name, & riders name, class # and test. Remove the sign just before the ride begins. The videographer can hold the sign then move back to behind the camera or hold the sign in front of the camera at arm's length while also holding the camera. There must be no edits between when the sign is shown and the rider appears.
 - Keep the horse & rider in frame, paying close attention to the near corners. On the far side, you will need to zoom in for clearer judging visibility. For ridden dressage, the horse and rider must be visible at all times through to the end of the equipment check.
 - Make sure to keep the letters in the frame that are elements of the test being performed.
-

Equipment Check:

- As soon as the test is finished, the camera must slowly circle the horse and rider showing all equipment and attire, including spurs and whip if used. If the videographer is unable to enter the arena, at G the rider may turn the horse slowly, wait five seconds, then turn slowly to show the second side, and wait an additional 5 seconds to complete filming of the equipment.
 - Show the entire horse, including the legs and feet. Zoom in for 3 seconds so the details of the spurs are visible.
 - The rider then dismounts and shows that 2 fingers will fit under the cavesson (noseband) or bosal by the side of the horse's check.
 - After putting 2 fingers under the cavesson or bosal the bridle and bit /bosal must be dropped so it can be evaluated. **Exceptional riders** are exempt from the bridle and bit/bosal dropping requirement and are not required to dismount.
 - Hold the bridle still so the bit can clearly be seen (in focus and in frame) for a minimum count of five seconds. Zoom in so details can easily be seen. Make sure the judge can see all parts of the bridle, including bit and reins clearly. Do not to obscure the bit, curb strap, curb chain.
 - A cavesson (noseband) must be shown to the camera, both inside and out. Demonstrate flexibility of the cavesson.
 - Demonstrate that the curb strap or chain is flexible and is at least ½ inch wide.
 - Bosal: If you are using a bosal, you must drop that as well. After you remove the bosal, show both sides of your horse's face, unobstructed, as well as the bosal. Demonstrate flexibility of the bosal.
 - You are responsible for knowing the correct rules for tack, attire and equipment for Western Dressage. See USEF WD121-123 for additional information.
 - Apparel & Equipment Rules: USEF equipment and apparel rules apply to the Western Dressage division.
-

Calling of Tests:

The test pattern may be called (with the exception of freestyles), but Coaching during the test is not allowed EXCEPT for WDAA Exceptional Rider tests.

WESTERN DRESSAGE ASSOCIATION®

OF AMERICA

GUIDELINES FOR GAITED HORSES

There are a significant number of gaited horse breeds (about 30 in North America), all with gaits specific to their breed. In Western Dressage competition, the gaited horse will perform a saddle gait in place of the jog. The saddle gait selected should be the gait in which the horse is balanced and athletically comfortable performing. The saddle gait is a 4 beat lateral or diagonal gait, timely and evenly performed. The tempo, rhythm and foot falls of the gait they choose to show must not change throughout the test. The true four beat gait the horse performs, should be able to be ridden in a working, lengthened, free and collected manner as the Western Dressage test calls for.

All rules can be found in the USEF Rule Book under Western Dressage.

WD106 Saddle Gait

The saddle gait has a noticeable increase in cadence from the working walk. Excessive speed or slowness will be penalized.

1. In lieu of a jog, gaited horses perform gaits of various rhythms and footfalls. The gaited horse will perform a saddle gait in place of the jog.
2. The saddle gait may be either a lateral or diagonal gait, timely and consistently performed. The tempo, rhythm and foot falls of the gait the rider chooses to perform must not change throughout the test. The gait the horse performs, should be able to be ridden in a working, lengthened, free and collected manner as the Western Dressage test specifies.
3. The quality of the saddle gait is judged by general impression, i.e. the regularity and rhythm of the steps, the cadence and impulsion. This quality originates from the horse having a supple back and well engaged hind quarters, and the ability to maintain the same rhythm and natural balance in all variations of the saddle gait.
 - a. Collected Saddle Gait. The horse, remaining “on the bit”, moves forward with the neck raised and arched and showing clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hocks are well-engaged and must maintain an energetic gliding impulsion, enabling the shoulders to move more freely. Although the horse’s steps are shorter than in the other saddle gaits, elasticity and cadence are not lessened.
 - b. Working Saddle Gait. With an energetic, regular consistent rhythm; the horse must go forward with consistent and elastic steps. The back must be relaxed and the shoulders free, while there is an obvious push from the hindquarters. The hind legs actively glide under the horse. The horse must show proper balance and maintain light contact with the bit. The horse’s nose must be on or slightly in front of the vertical.
 - c. Lengthening of Stride. This is a variation of the Working saddle gait; the horse covers more ground while maintaining the same tempo, consistent rhythm as in the Working saddle gait. Speeding up is a fault.
 - d. Free Saddle Gait. The Free saddle gait will show moderate lengthening of stride and frame compared to the Working saddle gait. Without hurrying, the horse goes forward with clearly lengthened steps, with impulsion from the hindquarters and uphill balance. The rider allows the horse to carry the head a little more in front of the vertical than at the Collected and the Working saddle gait. The horse’s neck is “out”, down and forward, with the nose slightly in front of the vertical, with a loose rein and the poll at approximately the same height as the wither (the neck is level). The steps should be consistent, the whole movement balanced and unconstrained, while maintaining a consistent rhythm.

There are nine (9) FHANA Performance Awards: Ridden Dressage, Riding, Driving, Driven Dressage, Western Dressage, In-Hand, Youth Dressage, Youth Driving, and Youth Riding. In 2019 FHANA implemented performance awards at the regional level, which allows for 7 different winners in those 9 different disciplines. Each regional winner is recognized with an award during the FHANA Annual General Meeting, and the overall winner for each discipline will be the highest scoring regional winner and become a FHANA Champion for the year. The 9 Champions will have their names placed on their discipline's perpetual trophy that is currently displayed in the FHANA office.
